SUMMARY

There's a lot of bad training out there. For 12+ years I've built education programs with one goal: make learning clear, useful, and human. I design for adoption, not just consumption, and increasingly I build the systems themselves: learning platforms, diagnostic tools, and interactive experiences that help customers become confident, capable users of the product.

KEY RESULTS

- **At Algolia, I proved** education is a renewal signal: 91% of accounts that took a course renewed, versus 79% of those that did not.

EXPERIENCE

Senior Instructional Designer, Algolia | 2024–Present

- Drove record Academy engagement with interactive, applied learning, technical paths and certifications. One year exceeded the previous four combined.
- Linked learning to renewals: accounts with recent Academy activity renewed at 91% versus 79%. Now being integrated into Customer Success health signals.
- Built AI tools for Customer Success and customers: a dashboard that flags broken implementations, first-pass review skills, and an open-source skills library for coding agents.
- Co-built an AI-native learning platform with search, an in-course AI tutor and intent-based paths. In internal testing.
- Launched a five-course executive path so Sales and Customer Success can engage decision-makers.

Instructional Designer, Talkdesk | 2021–2024

- Helped build the education function as the company scaled, setting standards for how learning is designed and delivered.
- Owned global onboarding and manager resources.
- Partnered with HR, leadership, and Sales Enablement on leadership development and sales skills.

Instructional Designer, Kelly Services | 2018–2021

- Built training for a process automation rollout, enabling adoption for 2,000+ global operators.
- Designed interactive e-learning and assessments tied to operational goals.

Earlier roles | 2015–2017

- **Administrative Co-op, Dow Chemical | 2016–2017:** Led a 2,000+ record data archival project in a regulated environment.
- **eLearning Developer, Delta College Corporate Services | 2015–2016:** Developed e-learning modules and refined training content.
