SUMMARY

There's a lot of bad training out there. For 12+ years I've built education programs with one goal: make learning clear, useful, and human. I design for adoption, not just consumption, and increasingly I build the systems themselves: learning platforms, diagnostic tools, and interactive experiences that help customers become confident, capable users of the product.

EXPERIENCE

Senior Instructional Designer, Algolia | 2024 - Present

- Led customer education strategy and the design of courses and content across Academy, from onboarding to certification.
- Rebuilt Academy around interactive, applied learning and launched technical paths and certifications that drove record engagement. In a single year, engagement beat the previous four years combined.
- Analyzed Academy activity against renewals and shared the findings with Customer Success. Accounts where someone took a course in the past year renewed at 91%, versus 79% for those that didn't. Now being integrated into health signals.
- Built AI tools for Customer Success and customers: a dashboard that flags broken implementations, first-pass review skills, and an open-source skills library for coding agents.
- Built an AI-native learning platform with search, an in-course AI tutor and intent-based paths. In internal testing.

Instructional Designer, Talkdesk | 2021 - 2024

- Helped build the education function as the company scaled, setting standards for how learning is designed and delivered.
- Owned global onboarding and manager resources.
- Partnered with HR, leadership, and Sales Enablement on leadership development and sales skills.

Instructional Designer, Kelly Services | 2018 - 2021

- Built training for a process automation rollout, enabling adoption for 2,000+ global operators.
- Designed interactive e-learning and assessments tied to operational goals.

Administrative Co-op, Dow Chemical | 2016 - 2017

- Led a data archival project covering 2,000+ confidential records in a regulated environment.

eLearning Developer, Delta College Corporate Services | 2015 - 2016

- Developed e-learning modules and refined training content.

SKILLS

Focus: Customer education, onboarding, product training, certification, learning analytics, customer success enablement

Design and build: Claude, Codex, Figma, Adobe Premiere Pro, Adobe After Effects, Adobe Illustrator, Adobe Creative Cloud

Learning: LMS administration, Articulate, Captivate, video and motion

Data and infrastructure: Learning analytics, Supabase, GitHub, Vercel, Google Sheets and Apps Script
